

Kath and Claire are now in post and beginning work on the Family 'O' Project.

The funding for this project has been secured specifically to target the families of primary school aged children with the long-term aim of developing the membership of LOC.

During the coming weeks and months, we will be planning and promoting activities to introduce orienteering to family groups.

We aim to begin to deliver a programme of family-friendly sessions and events from early 2023. These will run alongside and dovetail with existing development opportunities within the club.

We will post full details of activities and regular updates on the LOC website and Facebook pages to keep you informed.
