

Urban race

Another good Lakes 5 day urban, and we hope you all enjoyed your run around our town with Rob's courses.

Thanks to everyone that made the trip and took part. We all tried to make it enjoyable. We apologise for the missing control and hope it didn't spoil your run. We decided to let the courses stand to include the legs in and out of the control as we attempted to maintain fairness and nobody lost a lot of time. The alternative of voiding the courses affected was not in the spirit of the event, which was to offer a fun event.

A really nice event, with nice people who took part and good food at the end with views up to our Hoard and our lighthouse that is nowhere near the sea!!! but special.

The weather was improving as the week went on, so it wasn't too rough. We did actually order fine weather but got a little rain, we hope it didn't bother you too much.

Many thanks to all who helped.

See you in 4 years.
